

## Extracts from the property register

The City of Bocholt, Department of Property and Land Management and the District of Borken, Department of Geoinformation and Real Estate Cadastre, provide access to the real estate cadastre, provide information and produce extracts.

The real estate register is the **only complete register** in which all parcels of land and buildings are described and depicted, taking into account their location, use and size. Furthermore, the owners and those with heritable building rights as well as the results of the land valuation are documented in the real estate register.

We provide you with the following extracts:

- Official cadastral map
- Official base map (ABK)
- Proof of parcel and ownership

To obtain further **information on the extracts, the costs or the application for the extracts**, please open the pop-up fields below using the +.

## – Extracts

### Official cadastral map

- The official cadastral map is a map to scale on which various properties are shown with their district, parcel and plot, as well as their location (address).
- Available in the scales 1:500, 1:1000 and 1:2000
- [Example cadastral map](#)

### Official base map (ABK)

- The official base map is an overview map that creates a link between the official cadastral map and the topographical map.
- Available at a scale of 1:5000
- [Example ABK](#)

### Proof of parcel and ownership

- The land parcel and ownership certificate contains information on the data stored in the real estate cadastre, as well as details of owners and/or owners with hereditary building rights for each land parcel
- The owner, a person with rights equivalent to real property, a person with a legitimate interest or a person authorised by the owner can apply for the certificate.
