

Fair: Cycling trends

The wheel in focus

At the RADTRENDS trade fair, the focus is on the fun of cycling.

The RADTRENDS trade fair is an absolute must for cycling enthusiasts. From the latest developments to road safety, the trade fair offers a comprehensive spectrum of information and trends around cycling.

RADTRENDS is much more than just an exhibition of bicycles. The fair presents a varied supporting programme that immerses visitors in the world of cycling and leisure cycling.

A stand of the ADFC will give interested visitors insights into cycling culture and suggestions for their next tour, while the Borken district police will highlight important aspects of road safety at their stand. A bike wash and information stands from local businesses round off the experience.

Network and discover trends

RADTRENDS offers a unique opportunity to explore the fascinating world of cycling in all its facets. Whether for passionate cyclists, technology enthusiasts or curious beginners - the fair promises a combination of entertainment, education and innovative spirit. The fair invites you to immerse yourself in the development of the bicycle, make valuable contacts and be inspired by the lively community of bicycle lovers.

Bike fair on 23 and 24 March 2024

More than 30 exhibitors

In addition to the latest models to touch and try out, more than 30 exhibitors will be presenting all kinds of accessories, cycling holidays, clothing, navigation systems and cycling-related services.

Artistic bike show

Leisure fun for young and old alike. Kids can watch in fascination and try out their own tricks at the Trial Club Stadtlohn on Saturday.

A highlight on Sunday is the artistic cycling show by David Schnabel, one of the best artistic cyclists in the world with several world championship titles to his name. He has turned his sport into an event and turned his freestyle into a show choreographed with music in the truest sense of the word "on the bike". You can be inspired as part of the RADTRENDS trade fair in the Freizeithalle am Aasee Bocholt on Sunday, 24 March 2024, at 11:00, 12:00, 14:30, 15:30 and 16:30.

The BMX bikers guarantee real speed on the waves of the pump track in the outdoor area of the hall. Be amazed and try it yourself: professional bikers, BMX bikes, rental helmets and instructions will be provided by the bike experts from ROSE Bikes Bocholt.

Ride a penny-farthing

If you are brave enough, you can get a penny-farthing driving licence. The historic vehicles are available in four heights, and riding trainers help with this unusual mode of transport. Wobbly bikes also offer a fun and unusual experience - a real challenge for balance and dexterity.

Children aged 2-4 years have fun on the supervised junior course. They rumble over waves, see-saws and jogging tracks on their balance bikes. At the "Planet Upcycling" stand, bags and jewellery can be made from bicycle inner tubes. "There's much more to see and do, so just drop by", advises city councillor Daniel Zöhler.

Highlights
