The hub system in the Münsterland

Cycling by numbers!

Explore the region on two wheels with the ingenious junction system! Instead of complex route descriptions, you rely on junctions! These junction numbers can be found on the

junctions as red junction hats. Look for additional information on the inserts under the destination signposts to easily find the next junction or a fascinating themed route such as the 100 Castles Route or the popular Aa Cycle Route.

Follow the white and red signposts between the junctions to always stay on the right path. The orientation boards at the junctions present the entire network so that you can spontaneously decide where your cycle tour should take you. Simply marvellous!

The BVA cycle route map of the Borken district is also available to help you plan your cycle tour perfectly. **Price:** 9.95 euros. [Available here in the shop.](#)
