

Bocholt Country Party

Welcome to Bocholt!

Look forward to three active days on your bike and discover the Münsterland!

DAY 1: Immediately after your arrival, you should visit the **lively weekly market** in front of our historic town hall. You can then start your first cycle tour along the Bocholter Aa to Anholt moated castle. The castle is surrounded by a picturesque landscape with three baroque gardens, a landscape park and a fascinating maze. The Anholter Schweiz biotope wildlife park is located nearby. Seven different biotopes provide a generous habitat for native animals in species-appropriate enclosures. One highlight is the "Swiss Cottage" on an island in the park. Take time to enjoy the unique nature and wildlife.

DAY 2: A trip to our **Dutch neighbours** in the romantic **Achterhoek** is on the agenda. Be sure to visit the enchanting **little book town of Bredevoort**, where narrow alleyways convey the town's medieval flair. Here you can experience history, crafts, art and culture up close. The Netherlands is known for its diverse selection of cheeses. Plan a stop at a farm cheese dairy (Kaasboerderij) along the route to sample the delicacies on cosy terraces or buy a souvenir or two to take home. End the day with a meal voucher in one of our restaurants with a beer garden.

DAY 3: Today we recommend a visit to the **fascinating LWL-Museum Textilwerk**. Located in the centre of the new [Kubaai cultural quarter](#), the museum is spread over two sites on both sides of the Bocholter Aa. The weaving mill is a fully functional museum factory with over 30 looms, boiler house, machine house, workshop, "master's stall" and warehouse, documenting the work processes of a typical textile factory between 1900 and 1960. A bridge takes you to the other side of the Bocholter Aa, where the second part of the LWL-Museum Textilwerk is located in the former **Herding spinning mill**. Special exhibitions on the history of fashion and the textile industry are regularly held here on two levels. You can round off your visit perfectly at the **Aasee lake** opposite the museum with its wide range of leisure activities and a **beach café** with numerous sunbathing areas.
